Testing of valves. Tests, test procedures and acceptance criteria. This is a multi-part document divided into the Floating Ball Valve. Tests to confirm the pressure containing capability of the shell of a valve under pressure, Multi-part Document. Testing of valves BS Committees responsible for this British Standard The preparation of this British Standard was entrusted by the Piping Systems Components Standards Committee (PSE/-) to Technical Committee PSE/7, upon which the following bodies were represented: Amalgamated Union of Engineering Workers Associated Offices Technical Committee BS Part I BS Part I Dimensional Inspection Valve Standard L&T Cryogenic Valves Sl.
