

I'm not robot

I am not robot!

This book will be invaluable to business and economics students at both undergraduate and graduate levels. The economic concepts presented in Managerial Economics show students how to use quantitative methods and economic analysis alongside common sense to better understand business and address real-world issues. The solution manual contains answers to questions from each chapter of the textbook to help students learn. Updated real-world company cases and examples give students access to the latest economic developments in business to demonstrate a practical application. It aims to provide students with the correct solutions to test their understanding of managerial economics concepts covered in the textbook, demonstrating how to apply the principles of managerial economics to real-life situations. This book will be invaluable to business and economics students at both undergraduate and graduate levels. Professor Hirschey was also president of the Association of Financial Economists and a member of several professional organizations.
