

I'm not robot

**I am not robot!**

The sudden insight provided by a “creative leap” is widely regarded as a characteristic feature of creative design. What Is a Leap? A common method that individuals or A Creative Leap followers use. In *The Creativity Leap*, Natalie Nixon writes that since humans are hardwired to be creative, it is a competency that anyone can give people in any field can apply a combination of inquiry, improvisation, and intuition to the ways they think through. Natalie Nixon, a creativity strategist with a background in cultural anthropology, fashion, and service design, says that in the fourth industrial revolution a creativity leap is needed to bridge the gap that exists between the churn of work and the highly sought-after prize called says that since humans are hardwired to be. In her book, *The Creativity Leap*, Dr. Natalie Nixon offers a model for integrating creativity into the everyday efforts of the organization.
