NMAD=, outlier percentage  $\eta = \%$  and More than% of Australian and Shanghai teachers received scheduled time to support their participation in professional development, whereas less than% of Australian and Shanghai teachers

Surpassing Shanghai: An Agenda for American Education Built on the World's Leading Systems Reviewed by Anatoli Rapoport emIn, I took my students to Finland as a part of our study abroad program. In the city of Juvaskyla we visited several schools, observed classes, and talked to teachers and administrators This book answers a simple question: How would one redesign the American education system if the aim was to take advantage of everything that has been learned by countries with the world's best education systems? ember International Journal of Qualitative Studies In Education Contents Acknowledgments vii Foreword ix Linda Darling-Hammond INTRODUCTION Researching Other Countries' Education Systems: Why It's Indispensable but Tricky, What exactly can a study of Shanghai's middle class and its cultural values tell us about China's political trajectory and foreign relations, including the likelihood of war and peace? With a growing number of countries outperforming the United States on the most respected comparisons of student achievement and spending less on education per student this question is Surpassing Shanghai looks in depth at the education systems that are leading the world in student performance to find out what strategies are working and how they might apply to the United States. Developed from the work of the National Center on Education and the Economy, which has been researching the education systems of countries with the DOI: Corpus ID: ; Surpassing Shanghai: an agenda for American education built on the world's leading systems @article{LiSurpassingSA, title={Surpassing Shanghai: an agenda for American education built on the world's leading systems}, author={Dongmei Li}, journal={International Journal of Qualitative Studies in Education}, year={}, volume={28 Adopting a mixed research approach, the author explores the influence of PLCs on teachers' self-efficacy, commitment and job satisfaction in a number of schools in 7 · The BNN provides redshifts estimates along with corresponding uncertainties, achieving an accuracy of  $\sigma$ . Surpassing Shanghai looks in depth at the education systems that are leading the world in student performance to find out what strategies are working and how they might apply to "Surpassing Shanghai" looks in depth at the education systems that are leading the world in student performance to find out what strategies are working and how they might apply Surpassing Shanghai: an agenda for American education built on the world's leading systems.
