

Now You Read Pretty Rings & Broken Things (Black Tie Billionaires, #2)

Pretty rings can't always fix broken things.

Unfortunately, that doesn't stop powerful men from trying. Which is why instead of getting the wedding I'd always dreamed of, I was forced to marry the heir to our rival company and join a family that we've hated for generations.

An arranged marriage to make our problem disappear.

Then again, I'm the one that snuck around behind my father's back and ended up at the center of a scandal that could ruin my family's reputation.

Now the only person who can protect me is the cold and calculated billionaire, Archer Moore.

The marriage was only supposed to be for show, but Archer can be very convincing. He's demanded we move in together. That we kiss. That we make it look—and feel—real. He's a man who is obsessed with getting what he wants—and I'm starting to think what he wants is me.

But the closer we get, and the less we pretend, the more I question if the grudges between our families are too much to overcome for a marriage that was built on pretty rings and broken things.

Pretty Rings and Broken Things is a billionaire, arranged marriage romance releasing early 2024. It is Winnie's book and a complete standalone.
