

I'm not robot

I am not robot!

Key differentiators Cardinal Health: Healthcare Solutions, Logistics & Supplies When life is on the line, VITROS® XT is here for you with advanced technologies that propel your lab forward. Efficiently consolidate critical testing to deliver quality, timely results to the clinicians and patients who depend on you Мы хотели бы показать здесь описание, но сайт, который вы просматриваете, этого не позволяет XT Integrated System. We invite you to connect with us and explore how our diagnostic portfolio can make a difference in your healthcare setting. Ortho VITROS® Chemistry, Immunoassay, and Integrated systems reduce potential for error and the need for repeat testing to increase first pass yield, rease costs, and improve turnaround time. Our integrated systems offer a full chemistry and immunoassay menu to meet a busy lab's testing needs on a single platform. And that makes all the difference in patient care Learn how we help you chart the course forward in care. Product description.
