I am not robot!

When the reference to a standard, regulation or order is not followed by a date (e.g., Z, FAA order JO), it means the latest revision of that document.

ANSI Z (PDF) As the parent document of the Z series of laser safety standards, the Z is the foundation of laser safety programs for industry, military, research and development (labs), and higher education (universities). When reference to a standard, regulation or order is followed by a date (e.g., Z), the reference is to that specific document. As the parent document of the Z series of laser safety standards, the Z is the foundation of laser safety programs for industry, military, research and development (labs), and higher education (universities). The newly revised ANSI Z for Safe Use of Lasers Electronic Version is a single-user PDF version of the newly updated parent document and cornerstone of the Z series of laser safety standards. This standard provides recommendations for the safe use of lasers and laser systems that operate at wavelengths between μm and mm .

Application Notice (This notice is not a normative part of ANSI Z, American National Standard for Safe Use of Lasers.) Z standards and recommended practices are developed through a consensus standards development process approved by the American National Standards Institute.

Foreword (This introduction is not a normative part of ANSI Z, American National Standard for Safe Use of Lasers.) In the American National Standards Institute ANSI® Z Revision of ANSI Z American National Standard for Safe Use of Lasers Secretariat Laser Institute of America Notice (This notice is not a normative part of ANSI Z, American National Standard for Safe Use of Lasers.) Z standards and recommended practices are Purchase the ANSI Z (PDF) As the parent document of the Z series of laser safety standards, the Z is the foundation of laser safety programs for industry, military, ANSI Z Safe Use of Lasers.
