## Description

Can true love ever survive across time? Everyone says falling in love is supposed to be easy. But what happens when you meet the perfect man...in your dreams? Especially when you find out he was real and died one year ago – on the bridge you had agreed to meet on for your first date. Wouldn't you try to go back in time and change the course of destiny to create your very own happy-ever-after? But the path to true love is never without complications, and meddling with the past can have unexpected consequences... The must-read time travel romance for fans of *Maybe in Another Life*, *Sliding Doors* and *About Time*.
