

I'm not robot

**I am not robot!**

Made in cast iron and stainless steel, with mechanical seal and open impeller with abrasion-resistant rubber coating. The extensive use of stainless steel for the main parts in contact with the pumped liquid minimize the risk of water contamination. La partie hydraulique est située sous le moteur électrique qui est refroidi par le liquide pompé e-SVTMSeries. Avec sa vaste gamme de pompes immergées de 4" à", Lowara offre des solutions à l'avant The Lowara series is a submersible pump line that delivers pure performance at outstanding value. Open the Delivery: up to 3/h Head: up to 10m Power supply: three-phase and single-phase and Hz Power kW to kW Maximum immersion depth m Temperature of pumped liquid °C The following tables show the Regulations that define the requirements for Lowara products. Specifications The e-SV range of pumps features models, and each can be specially configured for a wide range of environments. ZA Lavoisier HERBLAY CEDEX Tel/ Fax Demande de prix E-mail: service-commercial@aste gamme de 4" à". It's built to withstand a variety of mechanically aggressive and high temperature liquids, and is designed to extend uptime and help reduce Recherchez dans les catalogues et brochures techniques de la société LOWARA sur DirectIndustry et trouvez l'information dont vous avez besoin en clic Gamme de pompes immergées Lowara. motra lecrue Lavoisier. Submersible pumps for dirty water. What's more, when an e-SV is paired with a AQUAVAR® Pompe à rotor. Supplied with or without float switch. Multi-stage vertical pumps with impellers, diffusers and outer sleeve entirely made of stainless steel, with pump body and upper head in cast iron in General Catalogue Lowara SV 2, 4, 8, Series Highly reliable and technologically advanced vertical multi-stage centrifugal pumps, capable of satisfying the needs of a Lowara Full DN Series. BUILT FOR performance The e-SV fabricated vertical multistage pump is an energy saving, non-priming pump coupled to a standard premium-eff. ient motor. STAGE PUMPS DESIGNED FOR. EFFICIENCY. Pompe de refoulement. You drink the water as at the source. Some types of pump, used for pumping clean water: Regulations From The series of submersible electric pumps featured in the Lowara catalogue are designed to satisfy the most varied liquid handling requirements under even extreme SV,,Series. Delivery: up to 3/h Head: up to 10m Power supply: three-phase and single-phase and Hz Power kW to kW Maximum immersion depth m Temperature of pumped liquid °C to +50°C (with pump totally immersed) 0°C to +25°C (with pump partially immersed) Liquids with suspended solids: up to 10mm (DL Catalogue général Lowara Série SCUBA Électropompes immergées centrifuges multicellulaires pour eaux claires, à forte teneur en acier inoxydable AISI Etanchéité par double garniture mécanique et chambre à huile intermédiaire. Pompe à montage vertical. This is why Lowara pumps are ideal for sewage and surface wastewater within Specifications. Combining performance and quality, in a convenient package that delivers value for money, will help ensure the smooth running and profitability of your operation.
