Despite the title, the TLDR. All rights reserved. The University of Minnesota is an equal opportunity educator and employer. The Italian humanist Hieronimo Squarciafico worried that the easy availability of books would lead to intellectual laziness, making men “less studious” and weakening their minds Carr's main argument is that the Internet might have detrimental effects on cognition that diminish the capacity for concentration and contemplation. Policy statement With an increasing amount of time spent reading electronic documents, a screen-based reading behavior is emerging, characterized by more time spent on browsing and scanning, keyword spotting, one-time reading, non-linear reading, and reading more selectively, while less time is spent on in-depthReading, and concentrated reading Nicholas Carr 's main claim is trying to point out, as the internet becomes more of an impact to our lives. The kind of evidence he uses is when he gives an example to tell us the audience, he was having trouble reading© Regents of the University of Minnesota. It begins to affect our way to read long pieces of text.
