

I'm not robot

**I am not robot!**

Manufacturer: WAGO Kontakttechnik GmbH & Co. KG / Documentation Manual Product Manualchannel Analog Input for Resistance Sensors V pdfKB System Manual WAGO I/O System View and Download WAGO Series manual onlineSeries i/o systems pdf manual download. The connection of conductor sensors is possible. Also for: 2-channel analog input; For Pt/RTD resistance sensors of 4 View and Download WAGO manual online. Descriptionchannel analog input; For Ni/RTD resistance sensors. Other variations are available upon request: connection of Pt or Ni resistance sensors. 2-Channel Analog Input Module for RTDs. sensors. A. by a red LED. The module automatically linearizes the entire temperature range. Also for: I/o system 2-channel analog input; For Pt/RTD resistance sensors () Online at WAGO USA! View and Download WAGO Series manual onlineAI Pt/RTD,Channel Analog Input for Resistance Sensors for WAGO-I/O-SYSTEMSeries control unit pdf manual download. The module automatically linearizes the entire temperature range / Documentation Manual Product Manualchannel Analog Input for Resistance Sensors V pdfKB System Manual WAGO I/O System VpdfKB System Manual Series System Description Series I/O-System – General Product Information pdfKB Overview on WAGO-I/O-SYSTEM Two or three-wire sensors can be connected. The shield directly connects to the DIN-rail. Fieldbus Independent I/O Modulesi/o systems pdf manual download. Also for: /, /, /, / / 2-Channel Analog Input Module for RTDs. Please also observe the further product documentation! Pt ; Pt ; Pt ; Pt ; temperature 2-channel analog input; For Pt/RTD resistance sensors () Online at WAGO USA! analog input; For Pt/RTD resistance sensors Data sheet Item numberColor: light gray This analog input module Technical data. Other variations are available upon request: connection of Pt or Ni resistance sensors. Pt ; Pt ; Pt ; Pt ; temperature range °C+ °C; The connection of conductor sensors is possible analog input; For Pt/RTD resistance sensors Data sheet Item numberColor: light gray This analog input module directly connects to Pt resistance sensors. The module automatically linearizes the entire temperature range. A sensor error is indicated via red LED. green LED indicates readiness for operation and error-free communication with the buscoupler 2-Channel Analog Input Module for RTDs. A sensor error (short circuit, line Data sheet Item number: Subject to changes.
