

I'm not robot

**I am not robot!**

The multi-functional and user-friendly centrifuge over-performs on everyday tasks and delivers consistent results File type: PDF. File size: 1.2 MB. – Do not pull out the mains plug while the program is running. capacity: 10 ml · 15 ml · 20 ml slide carriers for cyto preparations DESIGN line this Andreas Hettich GmbH & Co. KG D Tuttingen Model ROTOFIXA Basic UDI-DI Q5 Type Mains voltage (V) – ROTOFIXA PERFORMANCE The ROTOFIXA is a rugged, max. Hettich's place Clip Rotor is capable ROTOFIXA. The benchtop centrifuge spins sample For ades, the ROTOFIXA has set the standard in daily lab routine thanks to its versatility and solid construction. DIMENSIONS Andreas Hettich GmbH & Co. KG Föhrenstr. 10 Tuttingen Germany info@ Phone + 2 ROTOFIXA PERFORMANCE 1 max. RCF, max. Hettich's cytology rotors are compatible with most The ROTOFIXA offers labs an indispensable, non-refrigerated, general-purpose benchtop centrifuge at a great value. ROTOFIXA laboratory equipment pdf manual download Versatile and durable centrifuge for spinning blood tubes and urine tubes in swing-out rotors as well as angle rotors. onstruction. The ROTOFIXA performs multiple applications including cytology, in the same centrifuge, saving you money and bench space. Hettich's cytology rotors are compatible with most The ROTOFIXA offers labs an indispensable, non-refrigerated, general-purpose benchtop centrifuge at a great value. Perform cytology with the unique bio-seal place clip rotor or the flexible and economic two-step accessories The centrifuge ROTOFIXA is an in vitro diagnostic medical device according to the In Vitro Diagnostic Medical Devices Regulation (EU) The device is used for centrifuging and enriching sample material of human origin for subsequent further processing for diagnostic purposes For ades, the ROTOFIXA has set the standard in daily lab routine thanks to its versatility and solid construction. This includes the ROTOFIXA centrifuge, swing-out rotor, INDISPENSABLE For ades, the ROTOFIXA has set the standard in daily lab routine thanks to its versatility and solid. Device overview Technical data The ROTOFIXA Blood Tube Package comes complete with everything you need to perform your application. RCF, 1 max. capacity: 10 ml · 15 ml · 20 ml slide carriers for cyto preparations Do not trigger the emergency release on the device while the program is running. The benchtop centrifuge spins sample volumes up to 10 ml, blood collection tubes or 15 ml conical tubes with a simple user interface. The benchtop centrifuge spins sample volumes up to 10 ml, blood collection tubes or 15 ml conical tubes with a simple user interface. The multi-functional and user-friendly centrifuge over-performs on everyday tasks and delivers consistent results When using Hettich equipment, please refer to your products operators manual for important safety and product-use instructions View and Download Hettich ROTOFIXA operating instructions manual online.
