In line with our mission, UCCI works closely with content experts to develop and refine a series of Cognitive-Behavioral Intervention (CBI) curricula, and offer agencies to freely use them. The Cognitive Behavioral Interventions for Substance Abuse (CBI-SA) is a curriculum developed by the University of Cincinnati Corrections Institute and designed for individuals who are moderate to high need in the area of substance abuse. UCCI's Cognitive-Behavioral Interventions Substance Use Adult (CBI-SUA) curriculum is designed for people involved with the criminal justice system who are at moderate to high need in the area of substance abuse. This module will introduce CBI and introduce some basic concepts and terms for CBI; you'll also be doing a very interesting activity that will help give you a perspective on what it is. UC's Cognitive-Behavioral Interventions Advanced Practice (CBI-AP) curriculum provides a structured way to assist individuals in practicing skills learned through core modules. The Cognitive-Behavioral Interventions for Substance Use (CBI-SU) curriculum is designed for individuals that are moderate to high need in the area of substance abuse and well suited for criminal justice populations. The Cognitive-Behavioral Interventions for Substance Abuse (CBI-SA) curriculum is designed for individuals that are moderate to high need in the area of substance abuse and well suited for criminal justice populations. The Cognitive Behavioral Interventions for Substance Abuse (CBI-SA) is a curriculum developed by the University of Cincinnati Corrections Institute and designed for individuals who are moderate to high need in the area of substance abuse. (CBI-SA) curriculum is designed for individuals that are moderate to high need in the area of substance abuse and well suited for criminal justice populations. Explain how jails and community corrections agencies use cognitive behavioral interventions (CBIs) to reduce recidivism. Describe how CBIs that address criminal thinking are integrated with cognitive interventions that focus on substance use disorders. UCCI's Cognitive-Behavioral Interventions Substance Use Adult (CBI-SUA) curriculum is designed for people involved with the criminal justice system who are at moderate to high need in the area of substance abuse (CBI and CBI-SA).
