Suitable for cracked and uncracked concrete C/ The new Hilti HIT-RE adhesive anchoring system is the latest addition to the slow cure adhesive anchor portfolio and designed for solid performance in a wide range of The Hilti HIT-RE adhesive anchoring system is used to resist static, wind and seismic tension and shear loads in normal-weight concrete having a compressive strength, f c, of MPa to MPa. It is suitable to be used in cracked and uncracked concrete as defined per ICC-ES and ACI. Hilti HIT-RE adhesive is an Technical Data.
