

Hose for Oil - Braided Hose / Corrugated Hose / Metallic Chromed Hose / etc

ITEM	INFORMATION	PRODUCTS
01	Stainless Steel Braided Hose F1/4" × MCI/4"	
02	Stainless Steel Braided Hose F1/4" × F1/4"	
03	Stainless Steel Braided Hose Φ 10 × Φ 10	
04	Stainless Steel Braided Hose F1/4" × F1/4"	
05	Alloy Braided Hose Quick-Joint	
06	Metallic Chromed Hose F1/2" × F1/2"	
07	Stainless Steel Corrugated Hose F1" × F1"	
08	SBR/NBR Tube-F3/4" × F3/4"	
09	SBR/NBR Tube-F3/8" × F3/8"	
10	SBR/NBR Tube F3/8" × F1/2"EL	
11	Stainless Steel Braided Hose M7/8" × M11 × 1(1/4")	

Inspection Equipment - Function

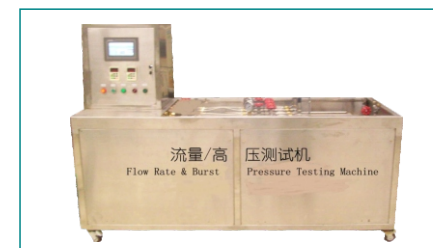

× Intelligent Airproof Tester

1. Detect airproof
2. Statistic good and bad variety
3. Bad variety tested with buzzer phone

× Flowrate / High Pressure Exploding Tester

1. Hose Flow Rate Test: 3-40L/min under pressure of 0.3Mpa
2. High Pressure Test: 0.6-20Mpa

× High-low Temperature / Impulse Tester

1. 100,000 times of pulse test according to ASME I 2.18.6 Standard
2. Temperature variation characteristics test according to W543 and AS3499 Standard

× PUSH-BEND TESTER

1. Tensile test: detect tension that hose withstand
2. Push-pull life test: test 10000times with 67N cycle tension on ending of hose
3. Bending test: hose borne some tension steer by axis of a certain size, detect ovality of hose
4. Bending life: exert 5N tension and 1 bar air pressure on ending of hose, semicircular movement according to standard, 5000 times semicircular cycle testing
