New graphical input scheme for building floor plans. Read HVAC Training Resources. All CoursesCarrier University •HAP v6 training videos are available on Carrier University Online. Grid format input of space data with spreadsheet-like features. View the List TRAINING. The program is a powerful tool for designing systems and sizing system components. All HAP licensees are given access to this material which includes a library of short modular videos as well as a completehour training class with IACET approved PDH hours Requirements. This includes a program overview, tutorial, example problems, application guidance, explanation of all This document provides an overview of the capabilities of Carrier's HAP HVAC design and energy analysis software. Release sheets and other resource material is Carrier's Hourly Analysis Program (HAP) is two powerful tools in one package — versatile features for designing HVAC systems for commercial buildings AND powerful energy HAP Training Videos. It describes the two main operating modes in HAP HAP Carrier Software for Cooling and Heating Load Estimation. Automatic generation of spaces, surface areas and orientations. [version] Carrier CorporationHourly Analysis Program (HAP) Basic Training () e ebook download as PDF File.pdf) or read book online for free Click below for training videos designed to help users with various tasks such as installation, setting preferences & utilizing the HAP building wizards. Join me in this tutorial as I demonstrate how to use Carrier Hourly Analysis Program (HAP) for HVAC and energy simula Carrier University Northwoods Business Parkway, Charlotte, NC HAP v ASHRAE Standard Testing Report: ASHRAE Standard Testing Results: HAP v ASHRAE Standard Testing Report: ASHRAE Standard Testing Results: HAP v Help System (Help Menu) Design & Simulation Weather Data (included in program) ASHRAE Default Schedules (included in program) EIA Utility Price Data (Utility Rate HAP v6 training videos are available on Carrier University Online. Basics of HVAC Concepts, Equipment and Systems. Provided below are the current software downloads from Carrier. Learn More White Papers. Radically streamlines take-off phase Interested in building energy analysis? Learn More Newsletters. Useful Applications. HAP can easily handle projects involving The Carrier HAP training videos and articles are designed to be concise and easy to follow. Access HAP The HAP help system provides complete documentation for the software. Videos explain the 3D graphical building modeling features of HAP v6 as well as how to use many other HAP is designed for consulting engineers, design/build contractors, HVAC contractors, facility engineers and other professionals involved in the design and analysis of commercial building HVAC systems. Basic Mechanical Engineering Knowledge Keep your software up to date with the latest Carrier has to offer. The total run time for the training videos is approximatelyminutes andseconds. The articles are also brief and to the point, providing users with a quick reference guide to get started with the HAP software HAP v6 is a major update to the HAP family of software. All HAP licensees are given access to this material which includes a library of short modular videos as well as a completehour training class with IACET approved PDH hours. It provides: Enhanced productivity for building modeling and analysis.
