Designation: A/AM – Standard Specification for Chromium and Chromium-Nickel Stainless Steel Plate, Sheet, and Strip for Pressure Vessels and for General Applications This standard is issued under the fixed designation A/AM; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. This standard is available in either Paper or PDF format. This specification covers chemical composition and mechanical properties of chromium, chromium-nickel, and chromium-manganese-nickel stainless steel plate, sheet, and strip for pressure vessels and for general applications. For ASME Boiler and Pressure Vessel Code applications see related Specification SA in Section II of that Code. For referenced ASTM standards, visit the ASTM website or contact ASTM for a catalog of standards. This standard is issued under the fixed designation A/AM; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. Contact ASTM International (www.astm.org) for the latest information. A number in parentheses indicates the year of last reapproval. This standard is issued under the fixed designation A/AM; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. ASTM-A 276 Standard Specification for Chromium and Chromium-Nickel Stainless Steel Plate, Sheet, and Strip for Pressure Vessels and for General Applications ASTM A 276 specification covers stainless steel plates, sheets and strips for pressure vessels and general applications. ASTM A 276 Free download as PDF File.pdf), Text File.txt) or read online for free. This specification is under the jurisdiction of ASTM Committee A01 on Steel, Stainless Steel and Related Alloys and is the direct responsibility of Subcommittee A01.01 on Flat-Rolled and Wrought Stainless Steel. ASTM A 276 Free download as PDF File.pdf), Text File.txt) or read online for free. Customers who bought this document also bought: ASTM-A 276 Standard Specification for Stainless Steel Bars and Shapes ASTM-E 18 Standard Test Methods for Rockwell Hardness of Metallic Materials ASTM-A 276 Standard Test Methods and Definitions for Mechanical Testing of Steel Products This standard covers chromium-nickel and manganese-nickel stainless steel plate, sheet, and strip for pressure vessels and for general applications. This specification covers chromium, chromium-nickel, and chromium-manganese-nickel stainless steel plate, sheet, and strip for pressure vessels and for general applications including architectural, building, construction, and aesthetic applications. ASTM A 276 Free download as PDF File.pdf), Text File.txt) or read online for free. This standard is issued under the fixed designation A/AM; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision.
