Din en 1555- 2: e) plastics piping systems for the supply of gaseous fuels - polyethylene ( pe ) - part 2: pipes. en 1555 covers a range of maximum operating pressures and gives requirements concerning colours. document history. en 1555 covers an area of maximum permissible operating pressures and determines requirements for coloring pipeline parts. this part of en 1555 specifies requirements of fitness for purpose of the polyethylene ( pe ) piping system in the field of the supply of gaseous fuels. this document ( en 1555- 2: ) has been prepared by technical committee cen/ tc 155 “ plastics piping systems and ducting systems”, the secretariat en 1555 pdf of which is held by nen.

it specifies the definitions of electrofusion, butt fusion and mechanical joints. this document specifies the general aspects of polyethylene ( pe ) piping systems in the field of the supply of gaseous fuels. plastics piping systems for the supply of gaseous fuels - polyethylene ( pe ) - part 1: general. this european standard shall be given the status of a national standard, either by publication of an. the pipes, fittings and valves shall be made of polyethylene compound conforming to this document this document includes materials classified pe 80 and pe 100. pdf), text file (. find out how to get ansi member discount. this part of en 1555 specifies the characteristics of valves made from polyethylene ( pe ) for piping systems in the field of the supply of gaseous fuels. this part of en 1555 specifies the characteristics of fusion fittings made from polyethylene ( pe ) as well as of mechanical fittings made from pe and other materials for piping systems in the field of the supply of gaseous fuels.

it also specifies the test parameters for the test methods referred to in this standard. in conjunction with the other parts of en 1555 ( see foreword) it is applicable to pe pipes, fittings, and valves, their. bs enpdf free download. bs enpdf | pdf | polyethylene | pipe ( fluid conveyance) bs\_ en\_ 1555- 1\_ ( ). pdf - free download as pdf file (. available for subscriptions. note 1 valves made from other material than. austrian standards institute [ on] pdf price. plastics piping systems for the supply of gaseous fuels - polyethylene ( pe ) - part 2: pipes. plastics piping systems for the supply of gaseous fuels - polyethylene ( pe ) - part 4: valves. it also specifies the test parameters for the test. this part of en 1555 specifies the general aspects of polyethylene ( pe ) piping systems in the field of the supply of gaseous fuels. txt) or read online for free.

content provider. note valves made from other material than polyethylene designed for the supply of gaseous fuels conforming to the relevant standards are permitted to be used in pe piping system according to en 1555 provided they have relevant pe connection for butt fusion or electrofusion ends ( see en. bs en 1555- 2: en 1555- 2: ( e) table 2 - minimum wall thicknesses for pipes sdr 17, 6, sdr 17 and sdr 11 dimensions millimetres. 1 material of the components. this part of en 1555 specifies the characteristics of pipes made from polyethylene ( pe ) for piping systems in the field of the supply of gaseous fuels. it also specifies the test parameters for the test methods referred to in. this document specifies the characteristics of pipes made from polyethylene ( pe ) for piping systems in the field of the supply of gaseous fuels. d n) including any identification en 1555 pdf stripes; — pe pipes with co - extruded layers on either or both the outside and/ or inside of the pipe ( total outside diameter d n. plastics piping systems for the supply of gaseous fuels■polyethylene ( pe) part 1: general. bs en 1555- 3: plastics piping systems for the supply of gaseous fuels - polyethylene ( pe) part 3: fittings pdf download. it also specifies the test parameters for the test methods referred to in this document. it covers three types of pipe: — pe pipes ( outside diameter.
