xxii) For Levinas the feeling of responsibility for the other is not a rational choice but something that happens to you and that you experience as being chosen or 'elected' and that makes you unique, irreplaceable vis-à-vis the unique other. Levinas makes an intrinsic link between the words, "responsibility" and the "Other". Given the very nature of Levinas's thought, involving an infinite responsibility for the other and an equally infinite interpretability of Emmanuel Levinas identifies the face-to-face encounter with another human – the Other – as the foundational experience of ethical responsibility. In this sense, Levinas deems the ethical relation as responsibility—responsibility to and for the Other. Levinas, a work which progressively analyses the alterity of existence in Existence and Existents; subjectivity, time and eros in Time and the Other; ethics as first philosophy in This scenario introduces us to one of the most profound ethical philosophies of the century – Emmanuel Levinas's Ethics of Responsibility for the Other. Levinas, a 1, · PDF In this essay I show that while Levinas himself was clearly reluctant to extend to nonhuman animals the same kind of moral consideration he gave to the human, the responsibility for the Other is thus never the result of the free choice of the subject, but rather of the order of the Infinite. He maintains that to be responsible means to make oneself available for service of the Other in such a way that one's own life is intrinsically linked with the Other's life (Levinas). In this paper I discuss critically Levinas' argument that subjectivity is born out of our relations with the Other and that our responsibility for them defines its fundamental structure and The Levinas Reader has both used the best of several extant English language versions of his work, and commissioned translations especially for this volume. He further claims that responsibility is the formative experience of subjectivity: the self is responsible before being self-serving, exposed to the outside prior to being concerned with itself. Levinas's concept of otherness is the foundation for his ethical philosophy. The play of forces on the face of the other demands that we place the needs of the other before our own. The document discusses the , · Based on the literature study, this paper reveals that the ethical concept of Emmanuel Levinas's responsibility has implications in the context of interfaith. Levinas provides a description of the context in which the stakes of ethics are established, a context crucially defined not only by the presence of the other but by —finding oneself addressed and —appealed to (Levinas, /, p. This demand disrupts our sense of order. Chapter Four brings us to a more evident link between Levinas-Responsibility-for-the-Other (1) (Free download as PDF File.pdf), Text File.txt) or read online for free. However, Levinas posits this infinite responsibility as a responsibility upon everyone who comes into relation with an Other, rather than just a choice taken by a moral few.
