

I'm not robot

I am not robot!

By Max Wyss
In your browser, do one of the following:
Mac OS: Choose File > Open (or Open File). If you made it, make it again, and check the procedure how it is made.
(Windows only) From the Files Of Type menu, choose All Files. If you downloaded it from some place, download again, and see if it works now.
5 Answers. Hope this can help. It means that your document is messed up beyond repair. Max Wyss. It means that your document is messed up beyond repair. But the good news is that there are easy solutions to fix Adobe error
The first and foremost step is to update your Adobe reader whenever you encounter this error
5 Answers. Voted Best Answer. Voted Best Answer. Locate a PDF on your computer, select it, and then click Open. If you made it, make it again, and check the procedure how it is made. If not, contact the owner of the document and let them know. If the PDF opens, the site you were viewing could have a problem
Click Browse. Windows: Press Control+O. If you
The common causes of "problem reading this document" errors in Windows and Mac are corrupt document files or outdated Adobe readers.
